DETAILED ACTION

1. The restriction made 02/20/2004 is herein withdrawn; claims 1-22 are under consideration.
2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Zimmer. The tool of Zimmer (Fig. 4) is capable of aligning at position with respect to a tooling hole and within a tolerance of less than one hundred microns if so desired. Applicant has only recited as structure in the claims a stamping tool. All other limitations are recitations of intended use and fail to structurally preclude the prior art. The tooling of Zimmer is capable of alignment by any means.

3. Claims 3-12 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
4. Claims 13-22 are allowed.
5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
